Key Conclusions from the 2019-2020 Pilot

Both the Math and English Test Prep show discernable and consistent improvement at the individual school and global analysis levels.

The results are not only positive in direction, but also statistically significant outside of the field tests in which the # of students is low (limiting sample size).

Improvements are consistently seen across student (race, gender, academic strength) and school (school quality, instructional approach) level factors.

Some key inputs do increase the rate of improvement.

When optimally implemented, the full potential of the program is high with the ability to drive several point score improvements and to drastically improve ACT® exam results.

Given the less than ideal deployment approaches in some pilots, it may be safe to expect higher rates of improvement in a typical environment.

The exact date of the faculty orientation and training meeting will be identified jointly by each selected high school and Jumpstart Test Prep staff via email.
2. Distribute to all current junior students a Jumpstart Test Prep English workbook.
Our accurate n-count of juniors (11th grade) as of today is _____.
The number of these students with a prior ACT exam score to date is _____.
 Selected high schools will receive their shipment of workbooks at orientation meeting.
 The workbooks will be used to complement the online resources of the Jumpstart Complete ACT English Review program.
3. Selected schools, along with pilot students, will have access to the Jumpstart online review content following the October 25th national ACT test date through the end of the school year (May 31, 2021). Prior to ACT testing of juniors in February 2021, selected schools agree to schedule and proctor the use of the Jumpstart Test Prep complete English review (8, 45-minute modules plus a 15-minute introduction video) through:

CLASSROOM USE: Beginning 10 schooldays prior to February ACT test date, schedule and complete Jumpstart’s online, on-demand complete ACT English review inside the classroom through a combination of whole-class instruction (Preferred - 1 projector in the classroom, 1 workbook per student) and/or individualized learning (1 student per device in a computer lab, or through 1:1 devices in the classroom)

Following the junior mandated February ACT test date

4. Each principal and teacher proctor will participate in a brief 10-question online evaluation process in March 2021 conducted through SurveyMonkey.
5. Share ACT assessment data with Jumpstart Test Prep as part of the pilot program review process. Specifically, provide a data comparison for junior students with any prior ACT scores (up until the October 25th national test date) to their February 2021 ACT scores following the Jumpstart English review. Reporting of this individual student comparison to Jumpstart Test Prep must be made by March 18, 2021 (or as soon as the data is received by the school). The high school understands that student and teacher identifiable information will not be disclosed.
